## YOUNG GIRL SUICIDES

By Shooting Herself in Forehead With  
Rifle—May Didman Found Dead  
in Bed at Home of Adopted  
Parents in the County.

May Didman, aged 12 years, adopted daughter of Mr. and Mrs. Julian Conrad, who reside about nine miles from this city on the Pleasant Ridge pike, was found dead in bed early yesterday morning at the Conrad home, having shot herself in the forehead between the eyes with a rifle some time Monday night.

The little girl was taken from the Kentucky Children's Home at Louisville three years ago and was adopted by the Conrads. Since that time she has been given a rood, Christian home and was seemingly cheerful and contented. Monday afternoon she made the remark that she would die Monday night. Mr. Conrad told her that she should not make such remarks, but thought nothing more of what she had said. He can attribute no cause to her rash act.

Mr. Conrad purchased a rifle Monday which he intended to use to kill some hogs yesterday morning. After calling the child twice yesterday morning, he walked into her room and found her dead in bed with a rifle at her side.

Cornice Charles Slack was called and held an inquest, rendering a verdict that she came to her death from a rifle shot from her own hands.

The Presbyterian Sale begins today.

## GERMAN STAFF OFFICERS

Arrive in Petrograd to Act as Advisors to Lenin, Bolshevik Premier—Believe Germans Are Attempting to Make Russia Active Ally.

London, November 27—Information was received here today from Petrograd that a number of German staff officers have arrived there and are acting in an advisory capacity to Nikolai Lenin, the Bolshevik premier.

Washington, November 27—Official confirmation of the news from London that German staff officers are in Petrograd acting as military advisers of the Lenin faction probably will be followed promptly by action on the part of the United States and the Allies definitely to place the Bolshevik regime in the list of Germany's allies.

If the Germans are there all doubt as to the purpose of the Bolsheviks is removed and the diplomats will be obliged to withdraw to a neutral capital, probably Stockholm, to await instructions from their governments. Such a development undoubtedly would be followed by immediate cancellation of all orders now in process of execution for military and other supplies for Russia both in the United States and Japan. Several orders from the United States are now on the way to Vladivostok but these can be diverted by wireless orders, and it has been understood that their delivery would be contingent upon evidence that they would not fall into unfriendly hands.

With the Germans openly advising Lenin and his followers, it is assumed that efforts will be made to carry Russia into the position of an active ally of the Central Powers.

This might produce a most serious situation by making available to Germany the vast stores of food, oil and cotton of Russia, and even though the Teutons found it impossible to convert the disorganized country into an active military ally, the million or more German, Australian and Turkish prisoners held in Russia would be freed for service with the Teutonic armies.

Ever since the overturning of the Kerensky government military strategists here have been anticipating such conditions as exists today in Russia. This is one of the principal problems with which the inter-allied war conference in Paris is expected to deal. Without being bound by any special instructions, Colonel House and his military adviser, General Bliss, will cooperate with the representatives of the Entente powers in framing some policy to meet the situation.

Strong hope is felt that an attempt by Lenin to turn Russia over to Germany will meet with powerful resistance at home. Any action decided upon by the Allies will be directed at the Petrograd Extreme and not at the people of Russia.

Reports that come from the Don Cossacks country, that the Hetman, General Kaledines, may be the master of the situation through his control of the food which is necessary to maintain any military force in the north of Russia, have encouraged military experts here to believe that in spite of the aid of his German advisers, Lenin and his faction may be brought to terms.

## GOOD PRICES FOR TOBACCO

(Fleming Gazette)  
Tobacco! Yesterday B. S. Grannis sold two crops of tobacco at 30c, one to Granals & Rhodes, one to Albert Day. W. K. Spencer closed out his purchase of tobacco to R. O. Chambers at 28½c, one crop which he had bought at 15c he sold at 31c. One grower is reported to have turned down an offer of 37½c. U. G. Saunders here from Fayette is said to have refused an offer of 27½c by a Fleming speculator for his entire crop of 200,000 lbs. Henry Gilepie sold Albert Day his crop at 25c, without seeing it. The flurry here yesterday was one of the liveliest in the history of Flemingsburg courts.

## DR. JOHN R. MOTT

General Secretary of the National War Work Council Issues a Statement "To the Million Men, Women and Children of America Who Contributed to the Y. M. A. War Fund."

London, November 27—Information was received here today from London that a number of German staff officers have arrived there and are acting in an advisory capacity to Nikolai Lenin, the Bolshevik premier.

London, November 27—Official confirmation of the news from London that German staff officers are in Petrograd acting as military advisers of the Lenin faction probably will be followed promptly by action on the part of the United States and the Allies definitely to place the Bolshevik regime in the list of Germany's allies.

If the Germans are there all doubt as to the purpose of the Bolsheviks is removed and the diplomats will be obliged to withdraw to a neutral capital, probably Stockholm, to await instructions from their governments.

Three developments are most gratifying to us and should be to every one who gave. One of these is the receipt of scores of letters from our soldier boys telling how much they appreciate what the Y. M. C. A. is doing for them and asking that we do not fail to extend the same care and comforts to the hundreds of thousands of other young men on their way to the front. The other is the response that came from the soldiers' appeal which we transmitted to the American people, who utterly without respect to color, class, creed or financial circumstances, gave so generously of their funds.

Another gratifying thing is the confidence the people seem to have in both the efficiency and the management of the Y. M. C. A. Instead of suggesting a freedom of expenditure of the sum the American people have placed in our hands, the confidence which the people have shown in giving \$50,000,000 has made even more sober our already serious thought.

Every giver, whether it be of hundreds of thousands or merely of cents, can rest assured that every penny of the fund will be applied for our fighting men that will give them a little touch of home in a strange land, build them up in body and spirit and make them even better fighters for our country.

Fortunately the Y. M. C. A. has always had the advice of some of the best business men in its local work. It is doubly fortunate in having had its budget made by some of America's best known business and financial leaders. The fact that the fund will be administered by a finance committee of which George W. Perkins is chairman and composed of other men with both experience in financial matters and knowledge of Y. M. C. A. work insures the most economical application of the money contributed.

We are preparing a definite plan for the extension of the association work in the camps both here and abroad. This will be announced soon."

## LITERARY SOCIETY WILL MEET

The Athenaeum Literary Society of Maysville High School will hold its opening meeting this afternoon at 1:45 p. m. in the High School auditorium. Everyone is invited to attend. Following is the program: Recitation ..... "Just Girls" Musical Number ..... Senior Quartet Debate—Resolved: That two races can not live on unequal terms in the same country. Skit ..... Reveries of a Bachelor

## TIERNEY-SHUMAKER

Mr. Louis E. Shumaker, aged 28, of Johnston Junction, and Miss Ruth A. Tierney, aged 25, of this city, were married this morning at the St. Patrick Catholic Church by the Rev. Father P. M. Jones.

## THREE MAYSVILLE MEN

Secure Commissions as First Lieutenants at Fort Benjamin Harrison—Mason County Boy Made Second Lieutenant at Fort Sheridan.

Successful candidates at the second officers' training school at Fort Benjamin Harrison were handed their commissions at formal graduation exercises yesterday morning. Those graduated included student-officers from Ohio, West Virginia, Kentucky and Indiana. Many of the Kentucky and Indiana officers will be stationed at Camp Zachary Taylor. Others have already been assigned to other camps and branches of the service not represented at Camp Taylor.

Dr. John R. Mott, General Secretary of the National War Work Council, who has made several visits to the war zone in the interest of the soldiers and prisoners of war said: "The response to the appeal of the War Work Council for funds to meet the needs of our enlisted men at the front went far beyond our expectations. We regard it, however, as almost providential, because since the \$35,000,000 budget was decided upon, events in the war zone have created such increased needs that the \$50,000,000 the people have given is none too much."

## SOLDIERS SHOW GRATITUDE

"Two things are most gratifying to us and should be to every one who gave. One of these is the receipt of scores of letters from our soldier boys telling how much they appreciate what the Y. M. C. A. is doing for them and asking that we do not fail to extend the same care and comforts to the hundreds of thousands of other young men on their way to the front. The other is the response that came from the soldiers' appeal which we transmitted to the American people, who utterly without respect to color, class, creed or financial circumstances, gave so generously of their funds.

First Lieutenant commissions were also awarded to Thomas B. Lyons, of Flemingsburg, and James C. Williams, of Ewing.

William E. Lloyd of the county, received his commission as second Lieutenant of the artillery at the Fort Sheridan, Ill., training school.

All the men will return to their homes today or tomorrow for a sixteen-day furlough before being ordered to report to their commands at various camps.

## INITIAL RALLY HELD AT WASHINGTON

The initial rally in the interest of the registration of women for service under the Woman's Committee of the Council of National Defense was held at Washington last night and all indications promise an excellent showing on the part of Mason county's women in this new and vitally important phase of women's war work.

Mrs. George L. Longnecker, County Chairman, presided at the meeting in the Washington Consolidated School. The audience was addressed by Mrs. Leslie Brand, Mr. Harry Curran and Mr. Wadsworth Clarke.

Mrs. Lucien Maitby recited two war poems of her own composition and Miss Lucy Smith who has been tireless in her services for patriotic causes in Mason county sang two selections.

Meeting of a similar nature will be held in other county precincts this week preparatory for registration day.

### BOXING

The Chicago Tribune is pleased to observe that, while everybody is engaged in safeguarding the morals of the boys in the training camps, they are permitted to indulge in boxing matches. Indeed, fistic experts are being employed to teach them, with the native co-operation of the Y. M. C. A. and other eminently respectable institutions. And as the Tribune remarks, there are no appreciable moral tremors in the nation.

It's natural enough. "A man who is expected to acquire proficiency with the bayonet is not expected to flinch from a boxing glove, and the nation seems to have reconciled itself to the idea that force may be necessary at times to preserve things of value."

"There is reasonable hope that the nation will come out of its test with a great deal of its mental and moral litter cleared away. The prudential and custodial ideas which were beginning to prevail in the United States were not calculated to develop a race strong in muscles or in character. The intent of these ideas may have been excellent and virtuous, but they were operating in a fashion more productive of weakness than of strength."

This is probably true so far as boxing is concerned, at least. It has always been a "manly art," from the contests of Homer's heroes at Troy, 3,000 years ago, down to the present day. It is incomparably more manly than the sword or pistol duels on which certain modern nations have prided themselves. It is an exercise calling for, and developing, a high degree of courage, strength and agility.

Americans are natural fist-fighters, as the British are. Boxing fell into disrepute in this country because it was allowed to develop into prize-fighting, accompanied by gambling, fraudulent decisions and other undesirable features. Against clean boxing few sensible Americans have ever had any objections. A general revival of the sport, under decent auspices, should be welcomed.

### FOR THIS WE ARE THANKFUL

Not only that our crops are in, and that we are ready to feed the world, are we thankful this year. But the war has brought us blessings. It took us a long time to pierce their disguises, but now we know many of them for what they are.

And the one big thing which stands above all others for which we lift our heads in gratitude this day is that we have learned to work together.

Teamwork. Co-operation. That's what we are getting out of the welter of the war.

We are learning that if all the women of the land work together for conservation in the home, conservation will be accomplished. If all the ship-builders work together, all the different kinds of them pulling ahead instead of against each other, we will have ships.

If all the democrats and republicans and socialists and prohibitionists and the rest will pull together we will have true democracy and a well governed republic and co-operation and temperance, and all the other fine things which once seemed airy visions and are now assuming solid reality.

We know that competition is wasteful—that if we all pool our interests there is work enough, service enough, reward enough for all.

We are taking primer lessons in this great truth as yet, but we have made the start and we are on our way.

If in the coming time we can hold before our eyes constantly this ideal of teamwork, next year we shall have wonderful cause indeed for thanksgiving celebration.

And perhaps, before many more thanksgivings have passed over our heads we shall see that teamwork is only the body. Its spirit is brotherly love.

### THE ROUND-UP

The long-deferred round-up of alien enemies has started. In every community German subjects, and subjects of Austria, Bulgaria or Turkey who have laid themselves open to suspicion, are being registered and subjected to restrictions. Many are being interned. Many more, hundreds of thousands altogether, are forbidden to live in certain quarters or to move about freely.

They may not travel by water on our Great Lakes or along the seaboard. They must keep away from wharves, piers and dry docks, from warehouses, grain elevators and other places where food, munitions or any sort of war supplies are stored. Their employment in factories is subjected to critical scrutiny.

All will be under the surveillance of federal authorities while the war lasts. They may be subjected to greater restrictions hereafter. Whether they are or not will depend on their own conduct.

The new regulations impose much hardship. But the aliens have brought it on themselves. The guilty, those who have rewarded our hospitality by treacherously blowing up ships or factories, burning wharves, or warehouses, and scattering poisonous propaganda, deserve more than they are getting. The rest, for the most part, are guilty of complicity because they have not tried to prevent these crimes, and have not exposed the criminals.

The round-up must not be defeated, therefore, by maudlin sympathy. It is time for stern action.

Springfield, Mass.—"After the birth of my ninth baby I was in a weak, run down condition, had pains in my left side, so I would faint often. My doctor advised me to try Lydia E. ### CATTLE NEED BE DIPPED BUT ONCE IN TEXAS FOR SHIPPING TO ARKANSAS AND LOUISIANA

Washington, D. The remedy backed by Maysville Read this case.

Mrs. W. A. Schatzmanna, 605 E. Second street, Maysville, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chancellor's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and tamelessness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmanna uses—the remedy backed by home testimony.

### BUREAU OF MINES EMPLOYS WOMEN TO REPLACE MEN

The Federal Bureau of Mines is opening its services to women as never before. Since the beginning of the war it has more than quadrupled its clerical force of women employed in the Department of the Interior at Washington.

In addition to its regular force of stenographers, typists, filing clerks, etc., who work during the day, the Bureau has been compelled to employ a night force, and this includes about twenty-five women. These night workers are employed at the rate of fifty cents an hour. The Bureau of Mines is endeavoring to make this work helpful to women who are out of work or awaiting employment, or require this extra help. No woman employed by the Government during the day is permitted to join this night force.

At the now Pittsburg Experiment Station, which has just been completed by the Government at a cost of half a million dollars, women are being employed as fast as male vacancies require and permit the substitution of female service. In the Bureau of Mines former force of two hundred employees at this station, which occupied the old Arsenal grounds, not a single woman was employed. They are now being employed as rapidly as vacancies occur which they can fill.

SCHOOL GIRLS TAKE PLEDGE TO ELIMINATE HON BONS

A sacrifice is being made by the Westover School of Connecticut. The girl members of this fashionable establishment have taken the pledge to eliminate all candy during the school year.

After figuring up the expenditure for a year, the girls came to the conclusion that a luxury which amounted to hundreds of dollars, besides using up sugar which should be conserved, was an extravagance of which they were ashamed.

Several other fashionable schools are considering the same sacrifice.

### DEVIL CONGRATULATES KAISER

Internal Palme, Hinden, My Dear Wilhelm:

Congratulations on that team work in the United States. The Baltimore fire was a neat job. Our elevator fire on the water front at Brooklyn destroyed only 800,000 bushels of wheat, but every little bushel counts. And we had torch crews out in Kansas City, Battle Creek and Indianapolis, burning cattle and wheat and hay.

Good stuff, Wilhelm!

Fire is my own specialty, but I'll have to admit you've shown me—all the way from Louvain to San Francisco. Hope some of those United States don't get impatient and shoot our fire bugs at day-break.

Joyously yours,

THE DEVIL.

**AMERICAN STEAMER IS SUBMERGED; 21 OF CREW ARE SAFE**

New York, November 27—Fifty-eight men, including 26 American citizens and five naturalized Americans, comprising the crew of the American steamship Acteon, reported sunk off the European coast. A dispatch from London today said twenty-one survivors had reached port Camarinas, Spain, and that the other members of the crew were missing.

The London cablegram made no mention of United States naval gunners aboard nor do the names of any appear in the records of the United States shipping commissioner here. It is assumed there were some on board inasmuch as the vessel was controlled by the United States Shipping Board.

Formerly the German steamship Adasturm, of 5,000 tons gross, the Acteon left New York early in October, carrying government supplies for Bordeaux. It is believed she was on the return voyage when sunk. She was commanded by W. J. Johnson. The vessel was built in Germany in 1909 and was seized by this government after the war with Germany began.

The Acteon is the first of the seized German steamships to be sunk while in American trade.

**ATTORNEY FAILS TO SHAKE STORY TOLD BY WOMAN**

Mineola, N. Y., November 27—Four hours of searching cross examination by District Attorney Charles B. Weeks today failed to move Mrs. Blanca de Saulles from the story she told from the witness stand yesterday in her trial on a charge of murdering her former husband, John de Saulles.

The twenty three old Chilean heiress reiterated her version of the tragedy of the night of August 3 where at do Saulles' Long Island home in the same dispassionate manner in which she testified yesterday. Her answers were deliberate and were frequently made after pauses in which she seemed to be given them consideration or striving to freshen her recollections. Her attitude of complete self-possession notwithstanding the unusual nature of the examination she was undergoing, was a subject of comment among the spectators who crowded the trial chamber.

**FIVE ATTACKS OF GERMANS BEATEN OFF BY ITALIANS**

Italian Army Headquarters in Northern Italy, Monday, November 27—Five determined attacks by Austro-German forces on the left wing of the Italian fourth army, near Monte Peretta, between the Brenta and the Plave, were delivered today. The enemy rushes were broken by the defensive troops with heavy losses to the attackers.

Not only the left but the right wing and the center of the army holding this sector was subjected to attack, the enemy effort now attaining its full force here. On the right and the center, the struggle raged from Monte Monfenera westward with the Italians holding their lines at all points.

The fluctuations of the great battle have now developed to a stage where the resisting power of the Italian army has been demonstrated to be sufficient to retard, if not prevent any sudden rush through the passes leading to the Venetian plains.
